Hi teopinillo,

Your request for an API key has been approved. You can start using this key *immediately*.

API Key: ddeb1cfb20d7ffdb3c7ea7fbabf1b045

An example request looks like:

```
https://api.themoviedb.org/3/movie/550?api_key=ddeb1cfb20d7ffdb3c7ea7fbabf1b045
```

We recently launched our TV API and would love some feedback if you have a chance to check it out.
